for all Letterboxes

Columns

Polycote columns are strong and lightweight making them a safe alternative to concrete.

Profiles

Polycote profiles allow each customer to have flexibility in design and effect. Almost any profile can be cut to order based on your volume and size requirements. Coating thickness can be adjusted for different applications.

Planter Boxes

Polycote planter boxes come in a range of shapes and sizes. They can be customised to your requirements. Available in colour of your choice.

Balustrades

Polycote balustrades are very strong and lightweight. Polycote can replicate any existing designs.
